NOTES

This table is used as a guideline for converting **Skirmish Campaigns' Scenarios** to **THE FACE OF BATTLE**.

The Skirmish Campaign classification system is very close to the TFoB system. There are a few categories in TFoB that are not included in Skirmish Campaigns. These missing categories are represented by two T2 training levels and a new E- rating for morale. The first T2 rating is for headquarters, engineers and special units. The second T2 rating is for infantry squads. E- morale rating is for *very poor* morale. As noted on the Skirmish Campaigns Format page, under Rules Translations, feel free to adjust the cards, combat value and morale value of any force presented in the scenario.
